REQUEST FOR PROPOSALS
(RFP)

**APPLICATION
DEADLINE:**

**THURSDAY,

**BEFORE

The Ethel and James Flinn Foundation (the “Foundation”) is a Detroit based private foundation established in 1976 by Ethel “Peggy” Flinn and her brother, James “Jim” Flinn, Jr. Peggy Flinn passed away in 1994. Jim Flinn, Jr., who was diagnosed with schizophrenia in his early 20’s, led a remarkable life until his passing away in 2007 at the age of 91. The Foundation is committed to improving the scope, quality, and delivery of mental health treatment in Michigan. The Foundation’s geographic focus is primarily southeast Michigan, defined as the counties of Wayne, Oakland, Macomb, and Washtenaw.

ELIGIBILITY AND AVAILABLE FUNDING

This RFP is open to governmental agencies and non-profit organizations that provide mental health care and services for children and young people (up to the age of 21 years old) either exclusively or as a component of its overall services. The organization should be located in southeast Michigan - specifically Wayne, Oakland, Macomb, or Washtenaw County but the Foundation may also consider programs and activities that benefit a major portion of the State of Michigan.

The Foundation is requesting proposals to implement Children’s Mental Health Evidence-Based Practices (EBPs) and has allocated approximately \$500,000 for 2021. Two-year grant requests ranging from \$50,000 to \$75,000 per year will be considered. The total two-year award will be determined during the grant decision process.

FUNDING PRIORITIES FOR 2021

According to the National Institute on Mental Health (NIMH), 1 in 5 children ages 13 to 18 have, or will have, a serious mental illness with nearly half beginning by age 14 and 75% by age 24. However, many children and adolescents with mental health and substance use disorders do not receive the treatment they need. The COVID-19 pandemic has only exacerbated the need for mental health supports for young people. The purpose of this RFP is to advance access to effective prevention, screening, early identification and mental health treatment interventions for children and young people up to the age of 21 years old.

The Foundation will primarily focus on implementing best practice programs supported by evidence. The Substance Abuse and Mental Health Services Administration (SAMHSA) offers a comprehensive listing of children’s mental health evidence-based practices (EBPs) websites <https://www.samhsa.gov/resource-search/ebp>. These EBPs are based on scientific principles and have demonstrated some level of efficacy. See **Attachment 1** for additional websites and resources.

The Foundation does not endorse a particular evidence-based practice or list of such practices, but will prioritize the following proposals aimed at improving behavioral health service delivery by:

- Implementing infant mental health models (zero to three) targeted to at-risk parents
- Implementing developmental screening, assessment, and mental health treatment models in early childhood settings for children (four to six)
- Implementing pediatric screening, assessment, diagnosis and behavioral health treatment models in school-based clinics and primary care settings
- Implementing screening, assessment and behavioral health treatment models in the child welfare and foster care systems
- Implementing diversion programs intended to divert children and young people with mental health disorders or co-occurring mental health/substance abuse disorders from the juvenile justice system into treatment and mental health services
- Implementing psychotherapy and psychosocial treatment programs including, but not limited to: cognitive behavioral therapy, dialectical behavioral therapy, family psychoeducation, trauma informed care, applied behavior therapy, etc.
